	Tennis Court Cleaning	<p>Cleaning of 33.3m X 16.4m tennis court as per the photos emailed by Gosia.</p> <p>The method for cleaning will be to first use a Westermann Honda WR870 Moss Brush to gentle brush the surface of the court and remove the bulk of the moss growth. This method is essential to reduce the risk of causing damage to the courts surface.</p> <p>We will then proceed to steam clean the entire court at low pressure with a flat surface cleaner.</p> <p>This will be followed up by a soft wash treatment of sodium hypochlorite to eliminate any remaining stubborn organic staining and thoroughly rinsed off.</p> <p>Finally a biocide treatment will be applied to the surface to provide ongoing protection against future moss growth.</p>	1	1,838.36	1,838.36
